

# STABBERT YACHT AND SHIP

Stabbert Maritime, a maritime family operating vessels world wide, is pleased to announce the opening of Stabbert Yacht & Ship (SYS). SYS is a comprehensive marine support and refit facility located in the heart of Seattle's artistic community of Ballard. Let SYS be your new HOMEPORT as we offer up our "can do" attitude, with excellent pricing, strong work ethic, and an operational understanding that comes from 40 years of marine operational and repair experience.

No other facility blends the construction, refit, and repair capabilities with 40 years of international vessel operational experience like SYS. As your HOMEPORT, SYS provides project management, operational consulting, purchasing, crewing, port engineering, and vessel support, 24 hours per day, 365 days per year. Whether you need our help for one hour or an entire project, SYS is there to serve you.

Seattle is HOMEPORT to the Pacific servicing maritime projects from the Arctic to South America and from the West Coast to the Far East, and these very same marine craftsmen are available through SYS to service your needs day or night, ensuring you world class vessel support.

Your crews will appreciate the community environment surrounding SYS as well stocked marine suppliers share the same avenues with great dining, plays, and the arts only minutes away. As a fresh water facility, SYS, is an excellent refit and repair destination as well as a refreshing layover between voyages to or from British Columbia, Alaska, and further Pacific destinations.

We hope that you will call SYS your PACIFIC HOMEPORT. Please take a moment to see what we can do for you.
